11.

[redacted] Dropped by the office of Senator John O. Pastore and discussed with Jim McKenna a letter from [redacted]

25X1

[redacted] This letter has to do with [redacted] theory on how the Soviets have been so successful in placing large masses into orbit around the earth. I advised McKenna that we were handling this on an information basis without any need for reply to the Senator. McKenna said this was correct. It is being forwarded to OSI for review and evaluation.

12.

[redacted] Talked with Mr. Zeller, in the office of Senator Thomas J. Dodd, regarding their interest in [redacted] a former Agency employee who was separated under the Surplus Personnel program. I reviewed [redacted] briefly with Zeller and mentioned the fact that the Agency had assisted [redacted] through a termination payment and that [redacted] seemed to be in good spirits and friendly with our people in his recent contacts. I left with Zeller a thermo copy of our letter to Senator Cotton on [redacted] case. Zeller was most appreciative of this information. He added that he still receives telephone calls from [redacted] who was separated from the Agency some time ago on disability retirement.
